Technology in Society

Keyword Index to Volume 30, 2008

Academic freedom, 122
Africa, 184
American education, 279
Analytical hierarchy process, 141
Ancient DNA, 194
Asia, 211
Automobile, 184
Automotive, 64

β-Thalassaemia, 84
B2B procurement, 163
Basic research, 293, 309
Bayh-Dole Act, 30
Bead breaker, 184
Biomass digestion technology, 94
Biotech, 94
Biotechnology, 383
Blades, 388

Capacity building, 319
China, 211, 235, 248, 265, 293, 319, 349, 349, 383, 405, 415, 423, 429, 437
Cloning, 194
Coal mining industry, 154
Co-evolution, 49, 429
Communications, 71, 388
Competitiveness, 141, 309
Computers, 388
Constructive technology assessment (CTA), 154
Cooperation: Competition, 371
Culture, 437
Cyprus, 84

Decarbonization, 1
Defence, 362
Defense, 349, 371, 437
Development, 129
Digestion, 94
Disease, 383
Drills, 202

Ecological modernisation, 154
Economic Competitiveness, 437
Economic development, 17
Economics, 299
Economy, 330
Ecosystem, 49
Education, 211, 235, 265, 275, 279, 299, 330, 397, 437
Electronics, 388
Energy, 1, 111
Engineering technology, 265
Engineers, 71
Environment, 265
European Union, 122
Evolution of science, 211

Fast-neutron reactors, 111
Federal investment, 309
Freshwater, 415
Fuel, 64
Funding, 248

Gandhi, 242
Genetics, 84
Genomics, 84, 383
Global enterprise, 339
Global knowledge networks, 279
Global warming, 111
Globalization, 371, 405, 423
Government policy, 17
Gravity, 411
Greenhouse gases, 1

Hardware, 388
Health, 383
Higher education, 211, 279
Human physiology, 411
Human resources, 275
Human resources for science and technology (HRST), 141
Hydrogen, 64, 111

ICT, 71, 388
India, 211, 242, 248, 275, 299, 319, 330, 362, 383, 405, 415, 423, 429, 437
Industrialization, 265
Infectious disease, 383
Information technology, 71
Innovation, 94, 235, 248, 319, 339, 423, 429, 437
Innovation policy, 49
Institutional systems, 429

Institutions, 129
Intellectual patrimony, 71
Intellectual property rights, 319

Japan, 429

Knowledge, 275, 299

Least developed countries, 94
Literacy, 397

Machine parts, 202
Material transfer agreement, 122
Materials science, 401
Mathematics education, 279
Microelectronics, 388
Microgravity, 411
Migration, 71
Military technology, 371
Mobility, 71
Monster theory, 194

Naming behavior, 202
Nanotechnology, 401, 405
National Innovation Ecosystem, 49
National innovation systems, 319, 423
National institutes of health, 383
National Science Foundation, 309
National systems of innovation, 94
Natural gas, 64
Needs, 104, 129
Nehru, 242
Networking, 339
Nigeria, 184
Norway, 64

OECD, 141
Open system, 235
Outsourcing, 429

Patents, 319
Pillars, 299
Policy, 248
Policy enforcement, 94
Policy innovation, 405
Problem solving, 129
Procurement, 163
Public health, 383
Public policy, 309

R&D, 17, 349
Research, 248
Research and development, 309
Research and development expenditures, 242
Research for design (R4D), 411
Reverse e-auction, 163
Risk, 64
Risk management, 94

Scarcity, 129
Science, 293, 299
Science and engineering indicators, 309
Science and technology, 235, 248, 275, 319, 330, 423, 437
Science and technology policy, 339, 405
Science education, 279, 397
Science indicators, 211
Science policy, 211
Scientists, 71
Security, 349, 362, 371
Semiconductors, 388
Service station, 64
Shortage of water, 415
Singh, 242
Social norms, 84
Social studies of technology (SST), 154
Software, 388, 429
Space, 330, 349, 371, 437
Space exploration, 411
Space R&D, 362
Spindles, 202
Superpower status, 211
Supply chain management, 163
Supply sourcing, 163
Sustainability, 154
System of innovation, 94

Tanzania, 94
Tasmania, 194
Teaching, 397
Technological innovation, 129
Technology, 104, 242, 293, 299, 309, 339, 349, 362
Technology assessment, 405
Technology development, 330
Technology diffusion, 17
Technology education, 279
Technology policy, 49
Thylacine, 194
Tolerable risk, 64
Tools, 202
Tyre, 184

United States, 211, 437
Universities in the middle ages and enlightenment, 30
University research in Europe and Asia, 30
University–industry cooperative research, 30
Urbanization, 265
US education policy, 279
US Research Universities, 30
US science and technology system, 30

Vannevar Bush, 30
Venezuela, 71

Wants, 104
Water, 111, 415
